## FOR IMMEDIATE RELEASE

### TRAFFIC CONTROL SCHEDULED ON STATE ROUTE 12

**SOLANO COUNTY**– Weather permitting, the California Department of Transportation (Caltrans) has scheduled two days of traffic control in March, 2009 to replace center line channelizers on State Route 12 in Solano County.

The traffic control between 9:00 a.m. and 3:00 p.m. will be on Tuesday, March 3 and Wednesday March 4. This work could be delayed because of precipitation, as dry pavement is needed to perform the operation.

During the traffic control, segments of SR-12 between Lambie and Shiloh roads near Suisun City and Drouin Drive in Rio Vista will be impacted by traffic delays in each direction of approximately 10 to 15 minutes. The CHP-assisted traffic control will enable Caltrans crews to replace channelizers in the center line rumble strip which have been damaged or knocked down by traffic.

Caltrans also replaced damaged channelizers on Highway 12 last month as well as in November, 2008.

Changeable message signs will be at key locations during the operation.

Motorists are advised to use caution when traveling through the area and please "Slow For The Cone Zone."

For more information please contact Ben Edokpayi at (510) 622 0120.
